

*Is all* **LUMBER**  
*"just lumber"*

*to You?*

It is to most folks. No reason why you should think otherwise unless you know from experience and technical training the difference between grades and the purpose for which each is best suited. But good designers and builders know and use the right grade for your particular job.

True economy in lumber is to purchase the grade best suited for the use you are making of it. To accomplish this you need do only two things. (1) Purchase the grade your architect, engineer, or leading contractor recommends, and (2) buy your lumber from the
